SAFETY IN NUMBERS

YOUR BUSINESS IS SAFE WITH US.
Each of our Jamco Flammable Safety Cabinets are engineered to perform with heavy-duty quality you can trust and features that will stand the test of time. Why are Jamco Flammable Safety Cabinets better? Let us count the ways:

1. Round corner doors
2. Patented concealed self-close mechanism protects against in-use damage
   *Jamco Exclusive*
3. 3-point locking system
4. 16-gauge louvered shelf support
5. Heavy-duty 14-gauge door—up to 52% more steel for extra durability
   *Jamco Exclusive*
6. Rust-resistant galvannealed shelves
7. Safety signage in large red lettering
8. 2” leak-proof spill containment sill
9. Available with 4” feet to allow forklift access
10. Adjustable leveling feet
11. FM approved and meets OSHA, NFPA code 30, and UFC 79 standards
12. Patented twin flame arrestor vents
13. 4” heavy-duty bullet hinge is self-lubricating and resists environmental dirt
   *Jamco Exclusive*
14. Solid, fully welded construction
15. Flush mounted paddle handle with lock
16. Highly durable powder coated finish
17. Grounding connector
18. Quality manufactured in the USA
19. Lead fusible link
20. Rust-resistant galvannealed steel bottom extends the life of the cabinet
   *Jamco Exclusive*
Replacement Indications
Signs of wear and deterioration can indicate that it’s time to replace your safety cabinet. Did you know that rust and other modifications can mean your cabinet no longer meets code? Modifications can include:
- Welding l-bolts to assist with moving the cabinet
- Door doesn’t close properly
- External attachments to dispense liquids
- Adding a padlock or drilling any hole in the cabinet
- Any venting added

Color Options
The following are industry best practices for selecting colors based on what is being stored:

- **YELLOW:** Flammable liquids
- **RED:** Paints, inks and other combustible liquids
- **BLUE:** Corrosives (acids, bases, oxidizers)
- **GREEN:** Pesticides and insecticides
- **GRAY:** Hazardous materials

State Requirements
Self-closing doors give you peace of mind that your team is protected, but did you know that some states and municipalities require self-closing doors?

Jamco Flammable Safety Cabinets help keep companies compliant and are FM tested and approved. They also meet OSHA, NFPA code 30, and UFC 79 standards. As always, check with your local municipality to see if a self-closing door is required.

**STATES REQUIRING SELF-CLOSING DOORS**
